The compression in each pair of leg sleeves helps to improve venous return, increasing blood flow and circulation.
This leads to faster muscle recovery time, as muscles receive more of the oxygenated blood they need to recover.

ATHLETIC WRAP

Self adhesive design: these elastic bandages are far better than the non-adhesive one as they have self-adhering ability so that the tape doesn't loosen and fall off easily. Great therapeutic value: our tapes are sterile and they have great medicinal value, which is good for swelling, sprain and general soreness
